

Who We Are

The **Canadian Association for Population Therapeutics (CAPT)** is a national, not-for-profit organization committed to advancing population-based therapeutic approaches in Canada.

We unite healthcare professionals, researchers, policymakers, industry leaders, and patient advocates to improve health outcomes through evidence-based decision-making and impactful policy development.

Our Mission

To foster collaboration and knowledge exchange to optimize therapeutic interventions at the population level. By bridging research and policy, CAPT strives to strengthen healthcare systems and promote equitable access to effective treatments for all Canadians.

STUDENT NETWORKING

While at the Annual Conference, students have an opportunity to attend a networking lunch for one-on-one conversations and group dialogue with leaders working in diverse fields, as well as attend an informal social event hosted just for student attendees

To learn more about the student program, contact our Student Representative: **Danielle Nagy**
